This recipe is super quick and easy to make and tastes just like egg salad! You can use more vegenaise in this recipe if you prefer, right now it's on the lighter side. I was craving egg salad for the longest time so I finally decided to make it with my Tofu Scramble recipe¹. I'm so glad I did because it came out incredibly like the real thing.

DIRECTIONS

1) Dice the celery and chop the green onions

2) In a mixing bowl, combine all the ingredients

3) Mix until all the ingredients are combined well

4) Add any additional vegenaise, salt or pepper to taste

Enjoy this egg salad on its own, as a side, on some crackers, in a sandwich, on some toast, the possibilities are endless!
